

Simple Planting Installation Agreement

Labor for Simple Planting

The labor fees listed below are estimates for simple plantings in a single visit
Site preparation not included (see below disclaimer)

Size	First	First (Hillsborough/Pasco)	Each Addt'l	Qty	Total
4"	\$75	\$180	\$2		
1 gal	\$75	\$180	\$4		
3 gal	\$75	\$180	\$7		
7 gal	\$75	\$180	\$30		
15 gal*	\$100	\$180	\$75		
30 gal*	\$150	\$180	\$100		
Mulch	\$75	\$180	\$4/ bag/bale		

Subtotal: _____

	Price Per Kit	QTY	Total
Staking Kit (Labor Included)	\$62		

Grand Total: _____

Date: _____

Quote By: _____

All 15g and 30g single trunk trees require the purchase of a tree-staking kit plus labor (\$62 per tree). The kit may be refunded after installation if it is determined that it is not needed. If the staking kit is refused and is later requested, a minimum \$100 labor fee plus \$37 plus tax tree-staking kit will apply.

Site preparation is not included. Please ensure the planting or mulching area is easily accessible and ready for work (no demo, weeding, root cutting, etc. required). Gates, hills, stairs, or other obstacles that would hinder access need to be disclosed before the installation appointment, otherwise additional labor fees may be required. If there are changes to the original estimate, the customer must give verbal agreement in person, over the phone, or via text.

The Process

1. You choose and purchase your plants, staking kits, and/or mulch
2. We set up an 811 Ticket
 - a. 811 comes within 2 business days to mark
3. The installer calls you to set up an appointment
4. The installer brings the plants and/or mulch to your address
 - a. If the customer is not present at the time of planting, the area must be clearly marked for the installer.
5. Plants are installed and mulch is spread
6. All waste is removed and disposed of by the installer

Wilcox Nursery and Landscape is not responsible for any damages to subsurface utilities including irrigation. Wilcox Nursery and/or the installer will submit an 811 ticket. It is the customer's responsibility to mark any utilities on private property past the meters. Contact the applicable utility service provider for utilities on private property.

Recommended Watering Guide

Please follow our recommended watering guidelines below for newly installed plant material. Supplemental watering may be required for some plants and trees for several years after planting, especially during times of drought. A daily rainfall of 1/2" replaces one watering. Be aware of local watering restrictions and follow them accordingly.

	Month 1	Month 2	Month 3	Month 4-12
Plants	Everyday	Every other day	2x weekly	1-2x weekly
Trees	Everyday	5x weekly	3x weekly	2x weekly
Sod	Everyday	Every other day	2x weekly	1-2x weekly

Standard Warranty

A 30 day replacement warranty on all plant materials.

For an additional 23 months, enjoy our exclusive guarantee for a one-time replacement value of 50% off retail price.

The 2 year warranty excludes indoor plants, annuals, wildflowers, palms, edible fruits and fruit trees, succulents, and bromeliads. Installation labor not included. See Disclaimer for additional exclusions. Machine and delivery fees are also excluded.

Regarding replacements: There is no guaranteed timeframe for replacements. Replacements are limited only to one for equal or lesser value. Replacements may have slight variations in size, shape and color. Replacements are reserved for plants that are considered dead (up to the discretion of designers or inspectors), *not* dying. Please note, replacement plants will need to follow the same establishment watering guidelines and may require additional hand watering separate from the rest of the landscape.

We're Here to Help

Please call us at the store if you have any concerns or questions about your new plants. You can also send photos and questions to NativePlants@WilcoxNursery.com
